### "Self-Titled" MCD/7"

The debut effort from California's own KILLING THE DREAM features 5 brand new songs on vinyl, and a 10 song CD featuring all 5 new songs, plus the 5 songs from the 2003 demo. Killing The Dream plays a style of hardcore similar to that of modern hardcore bands like Terror and Comeback Kid, successfully mixing traditional fast hardcore with some heavier material. Expect layered guitar harmonics and melodies, reminiscent of Count Me Out and Kid Dynamite, mixed with the vocal intensity of the early American Nightmare (now known as Give Up The Ghost) recordings. This new record takes solid foundation and builds upon that, hinting at a band really beginning to come into their own, creating their own unique approach to anger and desperation. The band has worked hard in their short time together, and has already completed two full west coast tours - one with Embrace Today (Deathwish, Inc. Records), and a second supporting Comeback Kid (Facedown Records) and Scars Of Tomorrow (Victory Records). While most bands simply bide the time until the headliners take the stage, Killing The Dream blows away an unsuspecting audience, and in many cases, steals the show. The band has undergone an amazing amount of growth in their first year together, and no less is expected of them in the coming months of 2004. Watch out.
