### "Rebuild" full length CD / LP

The first full length recording from Providence, RI's VERSE is finally here. Featuring ex-members of WHAT FEEDS THE FIRE, this is 11 songs that will really make you feel the urgency to change yourself and change the world around you. The unique song writing and blistering vocal delivery found within this album possesses an uncanny ability to make a person THINK and maybe more importantly, make a person FEEL. There's just enough speed to remain intense, just enough melody to bring about emotion, and just enough pain and anger in the vocals to peak interest in a song and its lyrics. This record is for those of us that have been shut out by the world, for those of us who are angry and frustrated as hell with how things have turned out. This record is for those of us who remain part of this hardcore punk community because we want to make things better. Available on CD or LP format.

Verse has already completed 2 full east coast tours and plans to tackle the entire United States with a full 4-week U.S. tour during August of 2004 in support of the "Rebuild" CD/LP. In their two years together as a band, they've built up a following all over the Northeastern United States, sharing the stage with the likes of Bane, Champion, Desperate Measures, Mental, Death Threat, and many many more. Expect more domestic touring in 2004, with international touring prospects on the horizon for 2005.
